Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF).

As an elderly subscriber to TracFone, my husband and I seldom use it to contact family, friends or each other. We have it to take with us whenever driving in case of emergency. We're already paying a large percentage of our pension, upon which we depend for living expenses, for medications. Any increases in our cost of living expenses are a severe burden to our well-being.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers. I urge you to adopt the Fair Share Plan.

Yours truly,
